

Resolution on the Implementation of a CCSBT Catch Documentation Scheme

(Modified 10 October 2010)

Referring to the principles adopted to guide the development of a catch documentation scheme (CDS) at CCSBT12 in 2005 and the ‘Resolution on the implementation of a CDS to record all catch of Southern Bluefin Tuna regardless of whether the Southern Bluefin tuna were traded’, adopted at CCSBT 13 in 2006;

Noting the need for Members and Cooperating Non-Members to provide for the tracking and validation of legitimate product flow from catch to the point of first sale on domestic or export markets;

Bearing in mind the need to achieve harmonisation of Catch Documentation Schemes across Regional Fisheries Management Organisations;

Emphasising that a CDS must be applied consistently and comprehensively across all sectors of the global SBT fishery to accurately confirm the SBT catch by each Member and Cooperating Non-member;

In accordance with Article 8.3(b) of the Convention on the Conservation of Southern Bluefin Tuna, the Extended Commission for the Conservation of Southern Bluefin Tuna (CCSBT) adopts the following measure to monitor compliance with the Commission’s conservation measures:

1. General Provisions and Application

- 1.1 All Members and Cooperating Non-Members shall implement the CCSBT CDS for southern bluefin tuna (SBT) to document the movement of all SBT as outlined in this resolution. The CCSBT CDS incorporates CCSBT CDS documentation and tagging of SBT.
- 1.2 For transshipments, landings of domestic product¹, exports, imports and re-exports under the jurisdiction of a Member or Cooperating Non-Member or Other State/Fishing Entity Cooperating in the CDS (OSEC²), all SBT shall be accompanied by a document described in section 3 of this resolution. There is no waiver of this requirement. However, the exportation/import of fish parts other than the meat (i.e. head, eyes, roe, guts, tails) may be allowed without the document.
- 1.3 Transfers of SBT into and between farms under the jurisdiction of a Member or Cooperating Non-Member shall be documented on the Farm Stocking Form and Farm Transfer Form as applicable.
- 1.4 Members or Cooperating Non-Members that prohibit the sale of fish caught by recreational fishers may exempt their recreational fisheries from the requirements of the CCSBT CDS.

¹ The term ‘landing of domestic product’ means landing of SBT into the territory of a Member or Cooperating Non-Member caught by a vessel flagged to that Member or Cooperating Non-Member or on the register of fishing vessels of that Member or Cooperating Non-Member.

² The term ‘Other State/Fishing Entity Cooperating in the CDS’ will be abbreviated to ‘OSEC’ within this resolution and means a State/Fishing Entity that has expressed its commitment, in writing, to cooperate with this resolution.

- 1.5 The Commission shall request the cooperation of appropriate authorities of States other than Members and Cooperating Non-Members of the Extended Commission that are involved in catching, landing, transferring and/or farming of SBT in the implementation of this resolution.
- 1.6 Members, Cooperating Non-Members and OSECs shall not permit the landing as domestic product, transshipment, import, export and/or re-export of SBT caught by vessels not authorised to catch SBT and (if SBT farming is conducted under their jurisdiction) the transfer of SBT to or between, and harvest of SBT from, farms not authorised to farm SBT.
- 1.7 Members, Cooperating Non-Members and OSECs shall not permit whole SBT to be landed as domestic product, transhipped, exported, imported or re-exported without a tag, except that:
 - 1.7.1 in the case of farming operations, the SBT may be landed without a tag provided a tag is attached within 30 hours of kill;
 - 1.7.2 in exceptional circumstances, where a vessel on the CCSBT Record of Authorised Vessels does not have sufficient tags on board the vessel, the tag may be attached at landing;
 - 1.7.3 in exceptional circumstances, where a vessel catches SBT as unexpected bycatch and has no or insufficient tags on board, the tag may be attached at landing.
- 1.8 In exceptional circumstances, where a tag becomes accidentally detached and cannot be reattached, a replacement tag shall be attached as soon as possible and no later than the time of landing, transshipment or export.
- 1.9 Members and Cooperating Non-Members shall report any exceptional circumstances referred to in 1.7.2, 1.7.3 or 1.8 to the Executive Secretary within 7 days of the landing. The report shall provide details of the exceptional circumstances, the number of SBT tagged and for 1.8, the old (where known) and new tag number(s).
- 1.10 Members and Cooperating Non-Members shall require that tags be retained on whole SBT to at least the first point of sale for landings of domestic product, and shall encourage the retention of tags on whole fish thereafter.

2. Registers Required

- 2.1 A record of farms is to be established and maintained by the Executive Secretary to identify authorised farms.
- 2.2 A record of vessels, maintained by the Executive Secretary, identifies all authorised vessels.
- 2.3 CCSBT CDS Documents that record information for vessels and/or farms not included on the above-mentioned authorised registers shall not be considered valid Documents for the purposes of this scheme.

3. Documents and Information Required

- 3.1 The CCSBT CDS Documents are :
 - 3.1.1 Farm Stocking Form – records information on the catch, towing and farming of SBT
 - 3.1.2 Farm Transfer Form – records information on the transfers of SBT between farms
 - 3.1.3 Catch Monitoring Form – records information on the catch, landing, transshipment, export, and import of all SBT regardless of whether farmed or not, including unexpected catch
 - 3.1.4 Catch Tagging Form – records information on individual fish tagged as part of the CDS
 - 3.1.5 Re-export or Export after Landing of Domestic Product Form – records information on SBT already tracked on the Catch Monitoring Form to the initial point of landing of domestic product or import that is, either in full or part, exported or re-exported.
- 3.2 The information to be contained in the CCSBT CDS documentation referred to in 3.1, along with associated instruction sheets, is in Appendix 1 A – D.
- 3.3 Once approved forms are adopted, only minimal modifications, such as the addition of translations, may be made³. No information field may be omitted from the standard form, except where the field is not applicable.
- 3.4 Any documentation modified, as described in 3.3⁴, shall be provided to the Executive Secretary for distribution to other Members, Cooperating Non-Members, as well as Non-Members known to be involved in the landing, transshipment, import, export, or re-export of SBT.
- 3.5 Significant amendments to the forms and form content may be made only with the agreement of the Commission at its annual meeting based on recommendations from the CCSBT Compliance Committee.
- 3.6 CCSBT CDS documents must be uniquely numbered.

4. Tagging

- 4.1 Members and Cooperating Non-Members shall require that an SBT tag be attached to each whole SBT at the time of kill except:
 - 4.1.1 in the case of farming operations, the tag may be attached within 30 hours of kill;
 - 4.1.2 in exceptional circumstances, where a vessel on the CCSBT Record of Authorised Vessels does not have sufficient tags on board, the tag may be attached at landing;
 - 4.1.3 in exceptional circumstances, where a vessel catches SBT as unexpected bycatch and has no, or insufficient, tags on board, the tag may be attached at landing.

³ However the Catch Tagging Form may be amended to include additional information at the discretion of the Member or Cooperating Non-Member.

⁴ With the exception of additions to the Catch Tagging Form.

- 4.2 As outlined at 3.1.4, a Catch Tagging Form records relevant tagging information for individual SBT. The Catch Tagging Form shall be filled in as soon as practicable after the time of kill. Length and weight measurements shall be conducted before the SBT is frozen. Where measurements cannot be accurately done on board the vessel, they may be made at the time of landing or transshipment, provided the measurements and the associated Catch Tagging Form are filled in before any further transfer of the SBT.
- 4.3 Completed Catch Tagging Forms shall be provided to the flag Members and Cooperating Non-Members which shall provide the information in the Catch Tagging Form to the Executive Secretary in an electronic format on a quarterly basis.
- 4.4 A tagging programme shall meet the minimum procedural and information standards set out in Appendix 2.
- 4.5 Members and Cooperating Non-Members shall prohibit the unauthorised use of SBT tags.

5. Validation

- 5.1 The CCSBT CDS documentation must be validated (or signed in the case of transshipments at sea) as applicable by:
 - 5.1.1 for landings of domestic product, an official of the flag Member or Cooperating Non-Member of the catching vessel or, when the fishing vessel is operating under a charter arrangement, by a competent authority or institution of the chartering Member or Cooperating Non-Member; and
 - 5.1.2 for all SBT transshipments subject to CCSBT *Resolution on Establishing a Program for Transshipment by Large-Scale Fishing Vessels*, the observer required by that resolution; and
 - 5.1.3 for all export of SBT, an official of the exporting Member or Cooperating Non-Member; and
 - 5.1.4 for all re-export of SBT, an official of the re-exporting Member, Cooperating Non-Member, or OSEC.
- 5.2 The authority to validate CDS documents may be delegated to an authorised person by an official of the relevant State/fishing entity. Members, Cooperating Non-Members and OSECs who utilise delegated person/s shall submit a certified copy of such delegation/s to the Executive Secretary. The individual who certifies a CCSBT CDS Document shall not be the same person who validates the Document.
- 5.3 Members, Cooperating Non-Members and OSECs shall provide to the Executive Secretary information on validation (including type of validation, name of the organization which validates the documents, title and name and signature of officials who validate the documents, sample impression of stamp or seal, and a list of all persons holding delegated authority to validate CCSBT CDS documentation prior to those officials and persons exercising the authority). Members, Cooperating Non-Members and OSECs shall inform the Executive Secretary of any changes in a timely fashion.

- 5.4 The Executive Secretary will maintain and update the information specified in 5.3 and provide it to all Members, Cooperating Non-Members and OSECs and promptly circulate any changes.
- 5.5 Members, Cooperating Non-Members and OSECs shall not validate any CCSBT CDS documentation referred to in 3.1 that is not complete, has obviously incorrect information, or has not been validated as required by this resolution.
- 5.6 No Member or Cooperating Non-Member or OSEC shall accept any SBT for transshipment, landing of domestic product, export, import, or re-export where any or all required documents do not accompany the relevant consignment of SBT, where fields of information required on the form are not completed, or where the form has not been validated as required by this resolution.
- 5.7 Full or partial consignments of untagged whole SBT must not be validated or accepted for transshipment, landing of domestic product, export (including export after landing of domestic product), import or re-export (except where the tag is no longer required to be attached to the SBT because further processing has occurred, as outlined at Appendix 2).
- 5.8 Members and Cooperating Non-Members shall undertake an appropriate level of audit, including inspections of vessels, landings, and where possible markets, to the extent necessary to validate the information contained in the CDS documentation.
- 5.9 Members and Cooperating Non-Members shall include in their annual review of SBT fisheries, details on the level of coverage and type of audit undertaken, in accordance with 5.8, and the level of compliance.

6. Exchange of Information and Confidentiality of Data

- 6.1 Members, Cooperating Non-Members and OSECs shall retain all original CCSBT CDS Documents received by them. Members, Cooperating Non-Members and OSECs shall also retain a copy of any CCSBT CDS Documents issued by them. Copies of these CDS Documents (except the Catch Tagging Form⁵) shall be forwarded⁶ to the Executive Secretary on a quarterly basis.
- 6.2 The Executive Secretary shall compile the raw data from CDS documentation into an electronic database. The Executive Secretary shall ensure the confidentiality of the raw data in its database and release to any State/fishing entity only the raw data relating to the CCSBT CDS Documents it validated. If a State/fishing entity requests CCSBT CDS Documents relating to another State/fishing entity, the Executive Secretary may release those data only with the latter's agreement.
- 6.3 The Executive Secretary shall report to the Extended Commission on and circulate to all Members and Cooperating Non-Members the data collected by the CCSBT CDS each year by 1 June for the period of 1 July - 31 December of the preceding year and by 1 December for the period of 1 January - 30 June

- 6.6 The Executive Secretary shall analyse the data provided in 6.1 and notify the relevant Member(s) or Cooperating Non-Member(s) of any identified discrepancies.

7. Verification of CDS Documentation

- 7.1 Each Member and Cooperating Non-Member shall ensure that its competent authorities, or other authorised individual or institution, take steps to identify each consignment of SBT landed as domestic product in, imported into or exported or re-exported from its territory and examine the validated CCSBT CDS Documents for each consignment of SBT. 8. Access to and Security of Information

- 8.1 Subject to each Member's, Cooperating Non-Member's and OSEC's national law, the information produced from the CCSBT CDS shall be confidential and may only be used in support of CCSBT purposes or for any other purpose agreed by the Commission.
- 8.2 Where necessary, in support of catch verification procedures, Members, Cooperating Non-Members and OSECs agree to exchange the necessary supporting information and, where relevant, evidence as may be necessary to verify the integrity of the flow of CDS information and to reconcile any discrepancies.

9. Implementation and Review

- 9.1 This resolution will enter into force on 1 January 2010.⁷ From that date, it replaces the CCSBT Southern Bluefin Tuna Statistical Document Programme adopted by CCSBT on 1 June 2000. For SBT caught before 1 January 2010, the tagging requirements of the CDS may be exempted until 30 June 2010 and the CCSBT CDS Documents shall be completed in the most practicable manner.
- 9.2 The Compliance Committee will review this resolution no later than at its 2011 meeting to identify any implementation issues, strengths, and weaknesses, and to recommend options to improve this resolution and its supporting procedures at the Extended Commission meeting. This review will include any concerns associated with the breakage or loss of tags and the extent of the use of exemptions in 1.8 and 1.9 as reported by Members and Cooperating Non-Members to the Executive Secretary. The date for a subsequent review will also be agreed at this time.
- 9.3 The Executive Secretary will monitor available technology associated with electronic documentation and fish tags to assist the Compliance Committee in its reviews.

⁷ Japan may use its current tagging system until the end of its 2009-10 fishing season (31 March 2010).

INSTRUCTION SHEET

This form is to be issued by the State/Fishing Entity that holds the national quota allocation against which these SBT have been taken.

This form (CMF) must accompany all transshipments, landings of domestic product, exports, imports and re-exports of SBT, and a copy of this form must be provided to the issuing State/Fishing Entity. The only exception is that exportation/import of fish parts other than the meat (i.e. head, eyes, roe, guts, tails) may be allowed without this document. Please note that:

- For farms, Farm Stocking Form(s) must have been produced by the State/Fishing Entity for all SBT on the CMF and the document number of those Farm Stocking Form(s) must be recorded on the CMF.
- Catch Tagging Form(s) must have been completed for all SBT on the CMF and copies must be provided to the issuing State/Fishing Entity. The document numbers of these Catch Tagging Form(s) must be recorded on the CMF.

If a language other than one of the CCSBT official languages (English and Japanese) is used in completing the form, please add the English or Japanese translation on the Document. The Catch Monitoring Form has 3 main sections: (1) Catch/Harvest; (2) Intermediate Product Destination; and (3) Final Product Destination. The Catch/Harvest and Final Product Destination sections must always be completed. However, the Intermediate Product Destination section only needs to be completed if the product is being exported and/or transhipped.

The top of the form contains 2 additional pieces of information that must always be completed. These are:

CATCH HARVEST SECTION - tick and complete only one part

Tick the box to specify whether the catch is for the Wild fishery or for Farmed SBT.

You must complete the part of the Catch Harvest section corresponding to the box that you ticked, and then complete the remainder of the section.

For Wild Fishery - This should only be completed for the wild fishery (not for farmed SBT)

Name of Catching Vessel: Enter the name of the catching vessel.

Registration Number: Enter the Registration Number of the catching vessel.

Flag State / Fishing Entity: Enter the Flag State or Fishing Entity of the catching vessel.

Description of Fish

All SBT described in this section must be sent to the Final Product Destination. Split shipments are not permitted, so if SBT are to go to two or more different destinations, a separate Catch Monitoring Form must be completed for the catch sent to each destination.

The shipment of SBT must be described, to the highest degree of accuracy using the following information.

NOTE: One row shall describe one product type

Product: Enter the type of product being shipped as either FRESH (F) or FROZEN (FR).

Type: Enter the type of product being shipped as either ROUND (RD), GILLED AND GUTTED (GG), DRESSED (DR), FILLET (FL) or OTHER form (OT). For OTHER, describe the type of product in the shipment.

Total Number of whole Fish (including RD,GG or DR): Enter the number of fish that remain whole. A fish remains whole despite cleaning, gilling and gutting, freezing, removing fins, gillplates and tail and removing the head or parts of the head. A fish is no longer considered to be whole if it has undergone processes such as filleting or loining.

For Other (OT) Describe the type of product: If Product Type is Other (OT), then describe the product.

For Other (OT) Specify the Conversion Factor: If Product Type is Other (OT) then specify the Conversion Factor to be used to convert this weight to a whole weight equivalent.

In addition, this form must be accompanied by a copy of the associated Catch Monitoring Form and copies of any previously issued Re-Export/Export after Landing of Domestic Product Forms for the SBT being exported.

This form is not required for the "first" export of the particular SBT if those SBT are being landed for the sole purpose of exporting. In this circumstance, only a Catch Monitoring Form needs to be created and accompany the product.

If a language other than one of the CCSBT official languages (English and Japanese) is used in completing the form, please add the English or Japanese translation on the Document. The Re-export/Export after Landing of Domestic Product Form has 2 main sections: (1) Export; and (2) Import.

Minimum Procedural and Information Standards for CCSBT Member and Cooperating Non-Member Tagging Programmes

General requirements of an SBT tagging system

1. As outlined in section 1.7 and 1.8 of the Resolution, the SBT tag shall remain on each individual fish while the fish carcass remains whole. A fish remains whole despite cleaning, gilling and gutting, freezing, removing fins, gill plates and tail and removing the head or parts of the head. A fish is no longer considered to be whole if it has undergone processes such as filleting or loining.
2. Members and Cooperating Non-Members shall take steps to ensure that SBT tags cannot be reused.

Specifications for SBT tags

3. Each SBT tag shall meet the following minimum standards:
 - a. have a unique pre-recorded tag number in an easily readable form;
 - b. tag numbering shall include a unique flag state identifier and a fishing year identifier (e.g. NZ-2008-000001);
 - c. be able to be securely fastened to SBT;
 - d. be non-reusable, tamper-proof and secure from counterfeiting or replication;
 - e. be able to withstand at least negative sixty (60) degrees Celsius temperatures, salt water and rough-handling; and
 - f. be food safe.

General requirements for tag related information

4. Members and Cooperating Non-Members shall record the distribution of SBT tags to entities they authorise to fish for, or farm, SBT.
5. In relation to each tag, Members and Cooperating Non-Members shall ensure their vessels and operators, and the relevant authorities have reporting procedures and formats allowing the collection of the required tagging information which must include month, area, and method of capture, and weight and length for each SBT.
6. All requirements of the CCSBT CDS Resolution outlined in Sections 5 – 9 of this resolution apply to tagging documentation and information for Members and Cooperating Non-Members implementing tagging programmes.

Content of the Executive Secretary's Six Monthly Reports to the Extended Commission

The reports in this Appendix are only to be provided to a designated authority of each Member.

With this Appendix, the following abbreviations are used to refer to different form types:

- FSF – Farm Stocking Form
- FTF – Farm Transfer Form
- CMF – Catch Monitoring Form
- REEF – Re-Export/Export after Landing of Domestic Product Form
- CTF – Catch Tagging Form

During the first year of the CDS, there will not be sufficient information from the CDS for all reports to be produced. It is also accepted that there will be delays in producing reports during the first year of the CDS while the Secretariat is in the process of developing the CDS database and associated reporting mechanisms.

Production Reports

Two production reports are to be produced.

(1) Production summary and reported catch comparison report

This report uses data from the CMF together with mortalities from the FSF to estimate the quota year catch of each Member and Cooperating Member. This should only be conducted for completed quota years and where sufficient CDS data is available. Processed weights from the CDS should be converted to whole weights using conversion factors supplied by each Member if available and the “best” alternative conversion factor where the Member has not provided a conversion factor to use. All conversion factor values used in the report should be listed. The report should also provide the reported quota year catch from the Member/Cooperating Non-Member (if that is available) for comparative purposes.

- Flag State/Fishing Entity;
- Quota year¹;
- Total estimated whole weight of SBT by fishing gear from the CDS;
- Total whole weight of SBT by fishing gear as reported by the Member (if available); and

¹ Member's have different quota years, so the actual quota year period of each Member should be used and these periods should be shown in the report to prevent confusion. This report should also contain a history of recent quota years (with any updated estimates from both CDS and Member's reports) for which there is sufficient CDS data.

- Comments²

(2) Detailed production summary report

This report is similar to the Annex 2 report from the TIS. It uses data from CMF and CTF to provide the following information:

- Flag Member/Cooperating Non-Member;
 - Captured, farm harvest, or farm catch/towing mortality
 - Product (F/FR);
 - Processed Type (RD/GG/DR/FL/OT etc.).
 - Month and year of harvest;
 - Gear code;
 - Statistical area;
 - Point of export (only if exported);
 - Month and year of export (only if exported);
 - State/Fishing Entity at final destination;
 - Month and year at arrival at final destination;
- and within the above groupings, the following quantities
- Number of SBT; and
 - Net weight of SBT.

REEF Reports

Two reports relating to the REEF form are to be produced.

(1) Detailed REEF summary report

This report is similar to the Annex 4 report from the TIS. This report uses data from both the CMF and REEF to provide the information below:

- Original catching State/Fishing Entity
 - Currently exporting State/Fishing Entity³;
 - Point of export;
 - Year and month of export⁴
 - Importing State/Fishing Entity;
 - Product exported (F/FR);
 - Type exported (RD/GG/DR/FL/OT); and
- and within the above groupings, the
- Net weight and Number of SBT exported.

² Comments may be required to provide additional information for interpreting the figures, for example, to indicate that a Member's report includes catches (such as recreational catch) that is not covered by the CDS, or that the CDS data may not be fully up to date for the most recent year etc.

³ This is the exporting State/Fishing Entity on the REEF form in question, not from preceding REEF forms or the CMF.

⁴ As determined by the export certification date.

(2) REEF discrepancy report

This report should examine all REEF forms and associated CMFs, and produce a list of any CMF forms that have been “over utilised⁵” in subsequent exports and re-exports. The list should identify:

- The document number, flag, product type(s) and weight(s) in each over utilised CMF form;
- The document number, exporting flag, product type(s) and weight(s) of the associated REEF form(s); and
- Other information agreed by the Compliance Committee.

Tagging Reports:

One tagging report is to be produced.

(1) Tag summary report

This report uses data from both the CTF and CMF to provide the following information

- Flag State/Fishing Entity;
- Total number and net weight of SBT tagged; and
- Total number and net weight of SBT reported on associated CMF’s.

Transshipment Reports

Two transshipment reports are to be produced.

(1) Transshipment summary report

This report uses data from the CMF together with transshipment declarations and observer reports to provide the following summary information for transshipments of SBT.

- Flag of catching vessel;
 - Month and year of transshipment;
 - Flag of transshipment vessel;
 - State/Fishing Entity at final destination;
- and within the above groupings, the following quantities
- Number of transshipments;
 - Number of SBT according to the CMF;
 - Net weight of SBT according to the CMF;
 - Net weight of SBT according to the transshipment declaration; and
 - Net weight of SBT according to the transshipment observer report.

⁵ An over-utilised CMF is where subsequent exports/re-exports of fish from the CMF have exceeded the original quantity of fish reported on the CMF.

(2) Transhipment discrepancy report

This report produces details of each transhipment in which the weight of SBT in the CMF differs from the weight of SBT in either the transhipment declaration, or the transhipment observer report.

- Flag, name and registration number of catching vessel;
- Date of transhipment;
- Flag, name and registration number of transhipment vessel;
- Net weight and Type of SBT according to the CMF;
- Net weight and Type of SBT according to the transhipment declaration; and
- Net weight and Type of SBT according to the transhipment observer report.

Farm Reports

Two farm reports are to be produced. These reports should be produced to cover a catching and farming period that covers the usual “season” for the relevant State/Fishing Entity.

(1) Farm summary report

This report uses data from the FSF and CMF to provide the following aggregate information for farmed SBT from each Flag State/Fishing Entity. This report is similar to the 6 monthly farms reports produced by Australia as part of the Trade Information Scheme.

- Flag and total number of catching vessels;
- Date range of capture;
- Statistical area(s) of capture;
- Total number and weight of mortalities during towing;
- Date range of transfers to farms;
- Total number and weight of SBT transferred into farms;
- Minimum, maximum and median of the average weights over all transfers;
- Date range of harvest from farms; and
- Total number and weight of SBT harvested from farms.

(2) Farm discrepancy report

This report produces details for each farm in which the number of SBT transferred into the farm (according to the FSF and adjusted according to the FTF) is greater than the number of SBT harvested from that farm according to the CMF.

- Flag, and name of the farm;
- Date range of transfers to this farm from initial tow cages;
- Total number and weight of SBT transferred into this farm from initial tow cages;
- Date range of transfers to/from this farm from/to other farms;
- Total number and weight of SBT transferred to/from this farm from/to other farms;
- Date range of harvest from this farm; and
- Total number and weight of SBT harvested from this farm.

Reconciliation Reports

CDS documentation will be sent to the Secretariat on a quarterly basis from multiple sources. The same document may be sent to the Secretariat at different times. For example, when SBT are exported or transhipped, and again when the same SBT are imported or landed as domestic product. The reconciliation reports should be designed to provide aggregate information concerning the number and types of documents that are expected, but that have yet to be received from each State/Fishing Entity. These reports should also identify if any discrepancies occur between the figures in the forms from the different sources. The Secretariat should design and produce these reports after the CDS has been in operation for 12 months.
