

INTER-AMERICAN TROPICAL TUNA COMMISSION
COMISIÓN INTERAMERICANA DEL ATÚN TROPICAL

RESOLUTION C-03-01

RESOLUTION ON IATTC BIGEYE TUNA STATISTICAL DOCUMENT
PROGRAM

Approved by correspondence, 24 June 2003

The Inter-American Tropical Tuna Commission (IATTC):

Recognizing the authority and responsibility of IATTC to manage bigeye tuna in the Eastern Pacific Ocean (EPO), at the international level,

Recognizing also the nature of the international market for bigeye tuna,

Recognizing also that there is uncertainty on the catch of bigeye tuna in EPO and that the availability of trade data would greatly assist in reducing such uncertainty,

Recognizing also that bigeye tuna is the main target species of “flag of convenience” fishing operations and that most of the bigeye harvested by such fishing vessels are exported to Contracting Parties, especially to Japan,

Recalling that the International Commission for the Conservation of Atlantic Tunas (ICCAT) has established its Bigeye Tuna Statistical Document Program, and that the Indian Ocean Tuna Commission (IOTC) has also established its Bigeye Tuna Statistical Document Program,

Recognizing that the Statistical Document Program is an effective tool to assist the Commission’s effort for the elimination of illegal, unregulated and unreported (IUU) fishing operations,

Recommends that,

1. Contracting Parties, **by March 1, 2003** or as soon as possible thereafter, require that all bigeye tuna, when imported into the territory of a Contracting Party, be accompanied by an IATTC Bigeye Tuna Statistical Document which meets the requirements described in **Annex 1** or an IATTC Bigeye Tuna Re-export Certificate which meets the requirements described in **Annex 2**. Bigeye tuna caught by purse seiners and baitboats and destined principally for canneries are not subject to this statistical document requirement. The Commission and the Contracting Parties importing bigeye tuna shall contact all the exporting countries to inform them of this Program in advance of the implementation of the Program.
2. (1) The IATTC Bigeye Tuna Statistical Document must be validated by a government official or other authorized individual or institution of the flag State of the vessel that harvested the tuna, or, if the vessel is operating under a charter arrangement, by a government official or other authorized individual of the exporting state, and;
(2) The IATTC Bigeye Tuna Re-export Certificate must be validated by a government official or other authorized individual or institution of the state that re-exported the tuna.
3. Each Contracting Party shall provide to the Director sample forms of its statistical document and re-export certificate required with bigeye tuna imports and information on validation in the format specified in **Annex 4**, and inform him of any change in a timely fashion.
4. The Contracting Parties which export or import bigeye tuna shall compile data from the Program.
5. The Contracting Parties which import bigeye tuna shall report the data collected by the Program to

the Director each year by April 1 for the period of July 1 - December 31 of the preceding year and October 1 for the period of January 1 - June 30 of the current year, which shall be circulated to all the Contracting Parties by the Director. The formats of the report are attached as **Annex 3**.

6. The Contracting Parties which export bigeye tuna shall examine export data upon receiving the import data mentioned in paragraph 5 above from the Director, and report the results to the Commission annually.
7. The Contracting Parties should exchange copies of statistical documents and re-export certificates to facilitate the examination mentioned in paragraph 6, consistent with domestic laws and regulations.
8. The Commission shall request cooperating non-contracting parties to take the measures described in the above paragraphs.
9. The Director shall request information on validation from all the non-Contracting Parties/Entities/Fishing Entities fishing and exporting bigeye tuna to Contracting Parties, and request them to inform him in a timely fashion of any changes to the information provided.
10. The Director shall maintain and update information specified in paragraphs 3 and 9 and provide it to all the Contracting Parties, and promptly circulate any changes.
11. The Commission shall request the non-Contracting Parties which import bigeye tuna to cooperate with implementation of the Program and to provide to the Commission data obtained from such implementation.
12. Implementation of this Program shall be in conformity with relevant international obligations.
13. At the initial stage of the Program, the statistical documents and the re-export certificates will be required for frozen bigeye products. Prior to implementing this Program for fresh products, several practical problems need to be solved, such as guidelines to ensure procedures to handle fresh products at customs.
14. The statistical documents for bigeye tuna caught by fishing vessels flying the flag of a Member State of the European Community may be validated by the competent authorities of the Member State whose flag the vessel flies or by those of a different Member State where the products are landed, provided the corresponding quantities of bigeye tuna are exported outside the Community from the territory of the Member State of landing.
15. Notwithstanding the provisions of paragraph 1, the Contracting Parties shall implement this resolution **by March 1, 2003** or as soon as possible thereafter in accordance with the regulatory procedures of each Contracting Party.
