

**RECOMMENDATION BY ICCAT TO CLARIFY THE APPLICATION OF COMPLIANCE
RECOMMENDATIONS AND FOR DEVELOPING THE COMPLIANCE ANNEX**

RECOGNIZING the need to clarify the procedures regarding implementation of ICCAT's compliance recommendations that address the treatment of under/over harvest of catch limits and minimum size tolerances, including the deadline and process for the submission of compliance tables and for developing the Compliance Annex;

THE INTERNATIONAL COMMISSION FOR THE CONSERVATION
OF ATLANTIC TUNAS (ICCAT) RECOMMENDS THAT:

1. By 15 September of each year, Contracting Parties and Cooperating Non-Contracting Parties, Entities, and Fishing Entities (CPCs) shall complete and submit the following to ICCAT using Commission-approved tables and forms provided by the Secretariat:
 - an "ICCAT Compliance Reporting Table" covering each of its applicable fisheries, and
 - a form for each stock or species, as appropriate, showing how adjusted quotas or catch limits were calculated taking into account ICCAT's rules on under and overharvests.

The Compliance Reporting Table shall cover the current reporting year and any revisions of previous years' data, which should be highlighted for ease of reference. The table format shall include, *inter alia*, current catches, balance, adjusted quotas/catch limits, and, where applicable, minimum size data. CPCs shall submit their compliance reporting table and forms for the application of underharvests/overharvests electronically in the format provided by the Secretariat.

2. Upon submission of the ICCAT Compliance Reporting Tables to the Commission, the Secretariat in consultation with the Compliance Committee Chairman shall prepare and distribute to CPCs a "Compliance Annex." The Annex will reflect: (1) all catch limits and minimum sizes/tolerances to which each CPC is subject; (2) each CPC's catch statistics submitted to the SCRS for the current reporting year, and any revisions to previous years' data; (3) any underharvests or overharvests; (4) all catch limit reductions that each Party must take pursuant to applicable rules and any catch limit increases a CPC may choose to take due to underharvest; and (5) the dates by when such reductions or increases will be taken. In the Compliance Annex, the Secretariat shall also note where compliance table submissions by CPCs indicate actions that may be inconsistent with ICCAT recommendations for consideration by the Compliance Committee.
3. At each annual meeting, the Compliance Committee shall review and adjust, as necessary, the Compliance Annex to ensure it reflects the proper application of ICCAT's compliance recommendations. In support of this review, each CPC shall report on the information presented in its ICCAT Compliance Reporting Table, including a detailed explanation of any overharvest of a catch limit and/or minimum size tolerance level, the actions already taken, or to be taken, to prevent further overharvest, and the dates by which such actions will be taken. CPCs shall also report any changes to the compliance information provided in previous years and explain, in detail, any changes to their Compliance Reporting Table made after the 15 September deadline. If a CPC's compliance data differs substantially from relevant statistics reported to SCRS, the Committee shall seek an explanation for the difference, where necessary and appropriate.
4. At each annual meeting, the Compliance Committee will present the results of its deliberations on the application of ICCAT's compliance recommendations, as reflected in a final Compliance Annex, for endorsement, in whole or in part, by the Commission. The Compliance Annex will be appended to the meeting report.
5. This Recommendation replaces *Recommendation by ICCAT on Application of Three Compliance Recommendations* (98-14) in its entirety.
