

**RECOMMENDATION BY ICCAT TO CONTINUE THE DEVELOPMENT  
OF AN INTEGRATED ONLINE REPORTING SYSTEM**

*RECALLING* the *Recommendation by ICCAT for the Development of an Online Reporting System* (Rec. 16-19) adopted by the Commission in 2016;

*NOTING* that the reporting requirements of the Commission are numerous and change over time and that any such system must, by its nature, be broad in scope and dynamic;

*RECOGNISING* the progress made to date by the Online Reporting Technology Working Group and the Secretariat in the initial development of the system;

*ACKNOWLEDGING* that the substantial scale of the project requires work beyond the initial target completion date of 2019;

*DESIRING* to continue to find ways to enhance the effective functioning of the Commission, including by reducing the burden associated with ICCAT reporting requirements for both the Secretariat and the CPCs and increasing access to valuable information;

THE INTERNATIONAL COMMISSION FOR THE  
CONSERVATION OF ATLANTIC TUNA RECOMMENDS THAT:

1. The deadline for completion by the Online Reporting Technology Working Group of the first phase of the online reporting system in relation to the elements of the required CPC Annual Reports shall be extended to 2021. The Working Group will present to the Commission for its consideration a prototype of the system in relation to this first phase in 2020, with the aim of completing necessary refinements in 2021 or as soon as possible thereafter.
2. To further the work on the first phase, the Online Reporting Technology Working Group shall meet at least once in 2020 and shall also continue to work virtually as required in order to meet the deadlines in paragraph 1 for production of a prototype as well as the completed first phase of the system.
3. The Working Group shall remain active following the completion the first phase of the system until such time as the Commission decides otherwise. The tasks of the Working Group after 2021 shall be:
  - a) To oversee the incorporation into the online reporting system of any new Annual Report requirements;
  - b) To determine any redundant requirements for which reporting is no longer necessary and;
  - c) With appropriate input from the Commission, to oversee development of additional system modules covering other ICCAT reporting requirements in order to establish a comprehensive and fully integrated online reporting system;
  - d) And other tasks as the Commission may identify.
4. In carrying out the above tasks, the Working Group shall work in consultation with the SCRS, Compliance Committee, and other subsidiary bodies of the Commission as necessary and appropriate.
5. The Working Group shall continue to provide annual updates to the Commission regarding its activities, including presenting its proposal(s) for the content and format of the online reporting system and related modules for Commission consideration in order to inform their design and development.
6. This Recommendation supplements the *Recommendation by ICCAT for the Development of an Online Reporting System* (Rec. 16-19).
