

**SUPPLEMENTAL RESOLUTION BY ICCAT TO ENHANCE
THE EFFECTIVENESS OF THE ICCAT MEASURES TO
ELIMINATE ILLEGAL, UNREGULATED AND UNREPORTED
FISHING ACTIVITIES BY LARGE-SCALE TUNA
LONGLINE VESSELS IN THE CONVENTION AREA AND OTHER AREAS**

RECALLING that ICCAT adopted at its 1999 meeting a *Resolution Calling for Further Actions against Illegal, Unregulated and Unreported Fishing Activities by Large-Scale Longline Vessels in the Convention Area and Other Areas*,

PRAISING and strongly supporting the joint program implemented by Japan and Chinese Taipei to eliminate large-scale tuna longline vessels engaged in illegal, unregulated and unreported (IUU) fishing by the scrapping of Japanese origin vessels and the re-registration of Chinese Taipei built vessels to the Chinese Taipei registry while ensuring no increase in the total number of her tuna longline fishing vessels,

BEING AWARE that a grace period is necessary to implement these scrapping and re-registration programs so as to avoid undue burdens on those vessels that participate in these programs,

BEING CONCERNED that a substantial number of owners of IUU large-scale tuna longline vessels, most of whom are Chinese Taipei's business entities, are still trying to continue IUU fishing by changing the flag of vessels and vessel name and/or ownership, and

BEING AWARE that the IUU tuna longline vessels de-registered by existing flag countries are trying to find new hosts,

RECOGNIZING the necessity and importance of cooperation by all Contracting Parties, Cooperating non-Contracting Parties, Entities or Fishing Entities to achieve the effective implementation of these programs to eliminate all the IUU large-scale tuna longline vessels,

**THE INTERNATIONAL COMMISSION FOR THE CONSERVATION
OF ATLANTIC TUNAS (ICCAT) RESOLVES THAT:**

- 1 The Commission urge Japan and Chinese Taipei to take the necessary measures to complete the scrapping of IUU vessels built in Japan (the current list of participating vessels is shown in **Appendix I**), and the re-registration of IUU vessels built in Chinese Taipei and owned by its residents to Chinese Taipei registry (the current list of participating vessels is shown in **Appendix II**), respectively. Japan will complete the program by the end of 2003, whereas Chinese Taipei will complete re-registration by the end of 2005 without increasing the number of its licensed large-scale tuna longline vessels operating at sea (600 vessels). The Commission also urges Japan and Chinese Taipei to annually report the progress of the scrapping and re-registration programs to the Commission for its review.
- 2 Paragraph 2 of the *Resolution Calling for Further Actions Against Illegal, Unregulated and Unreported Fishing Activities by Large-Scale Longline Vessels in the Convention Area and Other Areas*, adopted at the 1999 Commission Meeting, (hereinafter referred to as "the 1999 Resolution") may not be applied to the vessels which participate in the scrapping program by Japan as listed in **Appendix I** according to their scrapping schedule to be completed not later than the end of 2003, on condition that these vessels shall operate in compliance with the Commission's conservation and management measures. This paragraph may not be applied to the vessels that participate in the re-registration program by Chinese Taipei as listed in **Appendix II**, to be completed not later than the end of 2005, on the condition that these vessels shall operate in compliance with the Commission's conservation and management measures.
- 3 The Contracting Parties, Cooperating non-Contracting Parties, Entities or Fishing Entities shall intensify their actions mentioned in paragraph 2 of the 1999 Resolution.
- 4 The Commission request Japan and Chinese Taipei to report any changes to **Appendix I** and **Appendix II** to the Commission without delay.

Attachment I
